

Alex Chen

Systems Software Intern

Johor Bahru, Malaysia | alex.chen.demo@example.com | +60 17 990 2214
github.com/alexc-systems | alexsystems.dev

Professional Summary

Systems software intern with C++, Linux, and debugging exposure plus some firmware lab work. Good engineering fundamentals, modest robotics project depth.

Technical Skills

C++, Linux, Git, Documentation, Python, Arduino

Experience Highlights

- Assisted with systems debugging and reproducible issue isolation for internal engineering builds.
- Worked on C++ assignments involving state handling, device simulation, and test harnesses.
- Completed microcontroller labs using Arduino and documented hardware setup steps.

Selected Projects

- C++ diagnostics harness for simulated device behaviour.
- Arduino sensor lab with structured setup and troubleshooting notes.

Education

Bachelor-level Computer Science or Engineering background with project-based robotics, embedded, software, or automation exposure through coursework, competitions, freelance work, or internships.
