github.com/nadiaj-dev | nadiajaved.dev

Professional Summary

Junior full stack developer with practical web and mobile delivery experience. Strong product execution, but limited embedded or robotics exposure.

Technical Skills

JavaScript, React, Node.js, RESTful APIs, Flutter, SQL, Documentation

Experience Highlights

- Built and maintained client-facing apps with API integrations, dashboards, and content management workflows.
- Worked directly with stakeholders to ship usable features quickly and iterate from feedback.
- Supported some hardware-adjacent school projects but not core embedded engineering work.

Selected Projects

- Mobile education app with backend integration and reporting features.
- Admin panel for content updates, analytics, and workflow tracking.

Education

Bachelor-level Computer Science or Engineering background with project-based robotics, embedded, software, or automation exposure through coursework, competitions, freelance work, or internships.
