

Ibrahim Ali

Firmware Trainee

Rawalpindi, Pakistan | ibrahim.ali.demo@example.com | +92 306 771 2211
github.com/ibrahim-firmware

Professional Summary

Firmware trainee with basic Arduino and ESP32 knowledge, some C++ coursework, and hands-on lab testing. Needs mentoring for production-level work.

Technical Skills

Arduino, ESP32, C++, Prototype testing, Documentation

Experience Highlights

- Completed firmware labs covering sensor reads, digital outputs, and serial debugging.
- Helped assemble and test simple embedded kits for classroom demos.
- Maintained step-by-step setup notes and issue checklists for peers.

Selected Projects

- Basic obstacle alert bot using Arduino and ultrasonic sensing.
- ESP32 classroom monitor demo with serial logging.

Education

Bachelor-level Computer Science or Engineering background with project-based robotics, embedded, software, or automation exposure through coursework, competitions, freelance work, or internships.
