

Priya Sharma

Automation QA and Tooling Engineer

Bengaluru, India | priya.sharma.demo@example.com | +91 98450 2212
github.com/priyasharma-tools | priyatesting.dev

Professional Summary

Automation-focused engineer with strong debugging habits, QA discipline, and internal tool development experience. Some overlap with hardware validation, limited embedded implementation depth.

Technical Skills

JavaScript, Node.js, Documentation, Prototype testing, RESTful APIs, SQL, Python

Experience Highlights

- Built internal test tooling and issue dashboards for hardware-adjacent product teams.
- Coordinated prototype validation checklists and reproduced edge cases from field reports.
- Maintained detailed issue documentation, runbooks, and regression tracking systems.

Selected Projects

- QA dashboard for field-device validation cycles.
- Python utility for parsing test logs and generating summaries.

Education

Bachelor-level Computer Science or Engineering background with project-based robotics, embedded, software, or automation exposure through coursework, competitions, freelance work, or internships.
