

Marcus Vance

Senior Full-Stack Engineer

Email: marcus.vance@vancecodes.com | Phone: +1 (555) 765-4321 | Website: marcusvance.com

Professional Summary

Versatile and business-minded Senior Full-Stack Engineer with 5+ years of experience constructing robust, secure end-to-end applications. Proficient across the entire stack, from database optimization (PostgreSQL, MongoDB) to backend logic (Node.js, Express) and frontend experiences (React, TailwindCSS). Passionate about devops best practices and AWS orchestration.

Skills & Technologies

Technical Stack: React, Node.js, Express, PostgreSQL, MongoDB, TailwindCSS, AWS, Docker, REST APIs, CI/CD, TypeScript, Linux

Professional Experience

Senior Full-Stack Engineer at SynergyTech Products (2023 - Present)

- Architected and deployed a multi-tenant client onboarding portal using Node.js, Express, React, and PostgreSQL, supporting 50,000+ active businesses.
- Containerized entire development and staging environments using Docker, cutting developer onboarding times from 2 days to 15 minutes.
- Orchestrated cloud migration to AWS, leveraging ECS, RDS, and S3 to reduce infrastructure hosting costs by 28%.

Software Engineer II at WebGrid Solutions (2021 - 2023)

- Maintained and enhanced core web products using Express, MongoDB, and React, developing 20+ reusable backend routes and matching UI views.
- Refactored styling pipelines using TailwindCSS to enforce mobile-first design and accessibility consistency.
- Created automated integrations with SendGrid, Stripe, and Twilio, enabling streamlined messaging and billing flows.

Education

B.S. in Computer Science - Georgia Institute of Technology (2021)
